

I really enjoy listening to my XM radio instant traffic and weather when I am traveling away from my home town. I pay extra to have XM radio and I have really enjoyed being able to check the weather or get a traffic update while I am traveling. I feel like it should not be up to the National Association of Broadcaster to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160

Respectully
